May 22, 1993

William Johnson
Chief Archivist
John Fitzgerald Kennedy Library
Columbia Point, Boston MA 02125

Dear Mr. Johnson:

Thank you for your letter of May 14 responding to my inquiry about President Kennedy's intinerary for June 5, October 4, 1993, and general inquiries about the Dallas trip. June 5 was when the decision to arrange to go to Dallas was made.

Under separate cover I shall order from the research room staff nine pages from his appointment book. I am unable to afford the cost of the other material. Perhaps at a future time I shall be able to order them.

The El Paso Times describes the Vice President Johnson and Governor Connally visit to the Cortez hotel and the conference with President Kennedy. I shall ask the Johnson Library about this. With respect to the Secret Service logs I am particularly disappointed for they contain for President Johnson good factual material that has proven to be helpful in other aspects of my search and I assumed President Kennedy's records would contain these as a matter of course. I shall approach the Secret Service on these. Alas, I had thought the President's daily dairy or similar instrument kept track of his political meetings. Or, O'Donnell or Powers' record systems did.

After I have made further researches perhaps other questions will arise that will lead me again to the Library.

Sincerely and thank you,

David R. Wrone
